x.xxxx" = +/- 0.0005" (0.0127 mm)

6" GUTTER PROFILE

This product is protected by a number of patents.

PROFILE

SCREWS

- This hanger is installed with black Dracotized[®] self-sealing screws made of zinc #10 -1 1/2" (38 mm) with 1/4" (6.4 mm) hexagon heads and integrated rubber gaskets.
- Reinforces the gutter so it will stay in place year after year without needing to be removed or replaced.
- Reduces the risk of water seeping into the fascia.
